I copied with this reply everyone who will be affected by your fraud so that no one may claim that they did not know. That includes ICBC employees who are defendants and those who are responsible for informing ICBC managers and lawyers.

Everyone who knows or should have known is legally and morally responsible.

As we discussed several times, I intend to submit evidence and make arguments that go directly to yours and Vince Critchley's deception. You wilfully disregarded the law and made false representations in the two amended responses to notice of civil claims that you drafted on behalf of your clients. That will require time to go through the evidence and arguments; and to add to that, Vince Critchley refused to comply with justice Taylor's order to promptly schedule his client's application which will require additional time to deal with.

The court of appeal made it abundantly clear that I may make those arguments in the hearing of your clients' application; we will practically be dealing with multiple applications in the same hearing

I suggest to you, and your clients, to voluntarily amend their responses to comply with the law and after that is completed you may schedule their application and get back on track dealing with the claim against your clients. That would save everyone time and money.

It is my position that your fraudulent conduct does not represent the interests of your clients and that the delay and additional cost are a direct result of your misconduct. With this email, should you continue with your fraud, ICBC and the rest of your clients are liable and I will take action against all those responsible. There is no way out for you and there is only one way out for them.

Further, it is my position that Vince Critchley is knowingly and wilfully disregarding the law, as detailed in my application to strike his client's application, in order to assist you with and benefit from your fraud.

Further, it is my position that Mr. Harris' deliberate failure to comply with the rules for document discovery and by signing your submissions to Justice Taylor ,knowing full well that you submitted fraudulent documents, is an attempt to benefit from your fraud.

In summary, comply with the law or schedule the application for two days.

Best regards

Kal Badela (He/Him)

Mr. Badela,

We tried this week to book a hearing date in October 2024. We were not able to book a hearing date in October 2024.

It is difficult to book a hearing date for chambers hearings over two hours. It is possible that if we continue calling in each month, we will keep failing to get a hearing date, resulting in further delay.

We expect the defence applications can be addressed in under two hours. The defence submissions should take 45 minutes, now that we have addressed the issue of which applications should be heard first. Can you please provide your position on scheduling the defence applications in regular chambers. We could do that in September 2024.

Thanks,
